Latest news and reports

RFE/RL on 3975 kHz

On the morning of Thursday 27 January 2022, several listeners reported hearing a tape loop of "This is Radio Free Europe, Radio Liberty, Praha" on 3975 kHz. Alan Holder, Isle of Wight, commented on the WOR iog "Almost certainly a test from the USAGM site in Biblis, Germany (100 kW), which is the only one which has an antenna capable of operating on the 3.9 MHz band. Must be in preparation for any possible armed conflict in Ukraine and the likely disruption of RFE/RL online services".

Scandinavian Weekend Radio

SWR will next be in air from 2200 UTC on Friday 4 February until 2200 UTC on Saturday 5 February 2022 as follows:

2200-1000 UTC on 6170 & 11690 kHz

1000-1400 UTC on 5980 & 11720 kHz

1400-1700 UTC on 5980 & 11690 kHz

1700-2200 UTC on 5980 & 11720 kHz and also on mediumwave 1602 kHz for the whole duration.

Radio Andorra Revival

Occasionally there are broadcasts to celebrate the history of Radio Andorra, produced by Christian Milling. The next broadcast will be on 5 February 2022 from 1900-2100 UTC, from Moosbrunn Austria (and on MW from Roumoules, France). It offers another opportunity to hear again the world famous "Aqui Radio Andorra!"

Here is the full schedule for the next Radio Andorra broadcast. All in French, on Saturday 5 February 2022:

1200-1400 UTC North America: 5850 (WRMI)

1630-1830 UTC Europe: 6175 (Moosbrunn Austria)

1900-2100 UTC Europe: 1467 (Roumoules France)

2130-2330 UTC Africa, Asia: 7400 (Gavar, Armenia) (Christian Ghibaud. Nice France via BDXC-UK iog)

Morse signals jamming Shortwaveservice

Mike Barraclough posted the following to the British DX Club iog on 29 January 2022:

"There's continued to be a long thread on this jamming on the Garry Stevens Pirate/Free Radio forum I've confirmed using an SDR in Rheinbach that Radio Mi Amigo International 6085, long running professional station which has an audience including many who used to listen to offshore radio stations, is being jammed at the moment (1025 UTC).

Reports of this yesterday, the morse message has been translated here in this long thread on these claims:

<https://members7.boardhost.com/PirateRadio/msg/1643400389.html>

Next post says numbers refer to the court case. Bear in mind that you don't need to register to post on this forum so you do sometimes have people posting using more than one name. Posts also say 3985 has been jammed but I couldn't hear any when I just checked. Now checked on my Sony ICF7600G and the jamming is much stronger than Mi Amigo International's signal, currently a series of repeated tones then the morse message. Currently jamming Ron O'Quinn. (Mike Barraclough/BDXC-UK iog)

Albania

Radio Tirana

Radio Tirana is the external service of Radio Televizioni Shqiptar.

Transmitter sites: Although no longer broadcasting from transmitters in Albania, Radio Tirana is on shortwave via Radio Miami International in Okeechobee, Florida and ShortwaveService in Kall, Krekel, Germany.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.	CIRAF	Area
1330-1400	Mon-Sat	English	6005	Kall, Krekel, Germany	1	ND	18,19,27,28,29,37N	Europe
1600-1630	Daily	German	3985	Kall, Krekel, Germany	1	ND	18,19,27,28,29,37N	Europe
2230-2300	Sun-Thu	English	7780	Okeechobee FL, USA	100	044	9,17,18,27-28	Europe

China Radio International relay

The Cërrik transmitting station is owned by RTSH and is leased to China Radio International. However, since the A20 season no broadcasts have been heard from CRI despite frequencies having been registered with HFCC.

Andorra

Radio Andorra Revival

Occasionally there are broadcasts to celebrate the history of Radio Andorra, produced by Christian Milling. The next broadcast will be on 5 February 2022 from 1900-2100 UTC, from Moosbrunn Austria (and on MW from Roumoules, France). It offers another opportunity to hear again the world famous "Aqui Radio Andorra!"

Here is the full schedule for the next Radio Andorra broadcast. All in French, on Saturday 5 February 2022:

1200-1400	North America:	5850 (WRMI)						
1630-1830	Europe:	6175 (Moosbrunn Austria)						
1900-2100	Europe:	1467 (Roumoules France)						
2130-2330	Africa, Asia:	7400 (Gavar, Armenia)						(Christian Ghibaudo. Nice France via BDXC-UK iog)

Austria

Radio Ö1 International

Radio Ö1 International is a service of Österreichischer Rundfunk (ORF), Austria's national public service broadcaster.

Transmitter site: Moosbrunn (see explanation below).

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.	CIRAF	Area
0600-0720	Daily	German	6155	Moosbrunn, Austria	300	ND	18,27-29,37-39	Europe

Shortwave relays from Österreichische Rundfunksender - Moosbrunn

Transmitter site: Moosbrunn, a municipality in the district of Bruck an der Leitha in the Austrian state of Lower Austria.

The transmitting station is owned and operated by Österreichische Rundfunksender GmbH & Co KG. It consists of 2 x 100 kW and 2 x 300 kW shortwave transmitters.

Belarus

Radio Belarus International

Radio Belarus International is the External Service of BRTC. Although there was no longer any external broadcasting from transmitters in Belarus itself, Radio Belarus had until January 2022 daily transmissions via ShortwaveService in Germany. However, these appear to have ceased.

Belgium

Radio Onda

Radio Onda is a licensed Belgian station. There is no fixed programming yet and the radio broadcasts are made according to the operators' availability.

Transmitter site: Borculo, east Netherlands. It has 2 x 1 kW shortwave transmitters.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.	CIRAF	Area
variable	mostly Sat/Sun	Portuguese	6140	Margraten, Netherlands	1	ND	18,27,28	Europe
			9520	Margraten, Netherlands	1	ND	18,27,28	Europe

Bulgaria

Bulgarian National Radio

Radio Bulgaria ceased broadcasting on shortwave from its own transmitters in Bulgaria on 31 January 2012, but in January 2022 BNR returned to shortwave thanks to Shortwaveservice in Germany which has started airing the "Bulgarien Heute" and "Bulgaria Today" podcasts.

Time/UTC	Days	Language	kHz	Tx site	kW	Az.	CIRAF	Area

Spaceline Bulgaria - Kostinbrod

Spaceline Ltd Bulgaria was established in 1995 in Bulgaria from group of experts in telecommunications, TV and Radio broadcasting with main objective to provide transmission facilities and technical services. It manages the operation of the NURTS-owned transmitting site at Kostinbrod and is a service provider of shortwave radio broadcasting.

Transmitter site: Kostinbrod, a town in western Bulgaria. It is the seat of Kostinbrod Municipality, located 15 km west of the capital city of Sofia. The site has 4 x 50 kW, 3 x 100 kW, and 1 x 250 kW shortwave transmitters.

TDF International Broadcasting Centre - Issoudun

TDF (which stands for Télédiffusion de France officially renamed TDF in 2004) is a French company which provides radio and television transmission services, services for telecommunications operators, and other multimedia services, digitisation of content, encoding, storage, etc. Its headquarters are located in Paris. It is the dominant partner in the HDRR WiMAX consortium. It is also part of Digital Radio Mondiale.

Transmitter site: The International broadcasting centre of TDF is at Issoudun, a commune in the Indre department, an administrative region of Centre-Val de Loire. The site uses 12 rotary ALLISS antennas fed by 12 transmitters of 500 kW each to transmit shortwave broadcasts by Radio France International (RFI), along with other broadcast services.

Relays via Issoudun: The schedule below is in addition to RFI transmissions which are listed above.

Radio HCJB Deutschland

The German department of HCJB in Quito, Ecuador, was founded in 1953 and began producing programmes for German-speakers in Europe and South America. More recently, the Radio HCJB eV working group in Germany has been campaigning for more Christian programmes on the radio and to achieve this a range of programmes for Central Europe has been expanded step by step since 2012, and is now broadcast around the clock. German-language programmes are also produced by partner organisations.

Studio52 Radio Group

The Studio52 radio group is a network of small hobby radio stations in the Netherlands and Germany. They stream their programmes from studios in the Netherlands and Germany (using the Radio60! streaming service) and sometimes via a shortwave transmitter. The current members are Studio52 (Netherlands), Das Radio (Germany), Radio60! (Germany), Telstar-Radio (Netherlands), Odyonn-Radio (Netherlands), Radio Dutchwing (Netherlands) and DJ Nick (Netherlands).

Radio Gruss an Bord

NDR Info sends Christmas messages to seafarers all over the world on each Christmas Eve. Families and friends wish their loved ones at sea a happy holiday in the traditional programme "Gruss an Bord" (Greeting on Board). The last programme was broadcast on Christmas Eve 2021 from 7 p.m. to 10 p.m. CET on NDR Info and NDR Info Spezial. So that the ships on the world's oceans can receive the traditional broadcast, NDR rents time on shortwave.

Greece

ERT (I Foni tis Elladas, Voice of Greece)

The Voice of Greece is the international service of Greek state radio. It is heard on shortwave with transmissions primarily for Europe and the Americas. However, these may be irregular and times of operation may vary.

Transmitter site: Avlis, 37 km northeast of Athens, which has 2 x 100 kW & 1 x 150 kW shortwave transmitters.

<i>Time/UTC</i>	<i>Days</i>	<i>Language</i>	<i>kHz</i>	<i>Transmitter site</i>	<i>kW</i>	<i>Az.</i>	<i>CIRAF</i>	<i>Area</i>
1900-0800	irreg/Daily	Greek	9420	Avlis, Greece	150	323	01-11,80,36,27-29,38-41	EuMEAm

There may be some variation to the Voice of Greece schedule when they are on air. Ivo Ivanov regularly monitors them and in the past has observed short news bulletins in six languages on 9420 kHz, which may be as follows for B21:

0807-0819 in Arabic, Serbian and Albanian

0819-0907 in Greek with Proto (First) programme

0907-0917 in Spanish, Romanian and Russian, and then off.

Italy

IRRS - NEXUS-IBA

NEXUS-International Broadcasting Association is a coalition of broadcasters and independent programme producers and enjoys official status as a United Nations Non-Governmental Organization (NGO).

Transmitter sites: IRRS operate from offices in Milan, Italy, and Dublin, Ireland, with technical facilities located around the world. Shortwave broadcasts are from sites in Bulgaria and Romania and are primarily to Europe.

Sunlite

Stig Hartvig Nielsen reported on 4 December 2021: The new national DAB+ station in The Netherlands, Sunlite, which was launched on November 9th 2021 with a soft AC format, today at 14 UTC began broadcasting on shortwave 5955 kHz from Westdorpe in Zeeland, near the border with Belgium. Sunlite is using a temporary 75 Watts transmitter 24 hours a day for the next two weeks - and then Sunlite is expected to switch on a brand new 400 Watts transmitter daily at 06-18 UTC. But for the next two weeks DXers have the chance of catching Sunlite during the night (UTC) on 5955 kHz. Correct reports will be verified with an eQSL. Reports should go to: qsl@sunlite.nl. Sunlite is owned and operated by RadioCorp, which also runs 100% NL and SLAM! (via Hard-Core DX)

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.	CIRAF	Area

Norway

LKB/LLK Bergen Kringkaster

LKB/LLK Bergen Kringkaster is a museum/heritage radio station at Erdal that is operated by a group of enthusiasts. As well as its own programmes it also aired Radio Northern star, a classic rock and pop radio station operated by Northern Star Media Services AS.

Message from Svenn Martinsen, Foreningen Bergen Kringkaster 5895 AM (14 December 2021)

this comes from <https://www.facebook.com/groups/bergenkringkaster/> [google translated] via Glenn Hauser, WOR iog:

Svenn Martinsen, December 14th at 4:46 pm

Then we have arrived at the last broadcast day for our AM transmitters on Bergen Kringkaster. A closing program dedicated to FBK Foreningen Bergen Kringkaster runs between 2000 and 2200 tonight on both 1314 and 5895 kHz and online. At 0008 until tomorrow night, our AM broadcasts will be stopped on these frequencies and on 1611 kHz from Frudalsmyrene in Erdal, since our licenses will soon expire. But extension of the licenses has been applied for!

In my farewell speech which is programmed just before midnight, I thank FBK and co-founders LA1TNA Per-Dagfinn Green and LA7CFA Øystein Ask in particular. But thank you to everyone who has helped and made this possible. Thanks also go to NKOM and the Norwegian Media Authority, who have shown us great goodwill and have focused on maintaining activity on the medium and shortwave bands for Norway.

We are the last AM transmitters on the Norwegian mainland after NRK closed on Ingøy 2 years ago. Of course, we also thank the facility owner Askøy Municipality, with cultural director Gunnar Brynjulfsen at the helm. We are heard in over 30 countries, from the United States to Russia, and from the Arctic to Sicily.

It has been 12 nice and important years in life so far, and the AM period has lasted for 9 years. I am very grateful for the fellowship and camaraderie we have had. Then we'll see what happens next. We hope that new and permanent licenses will be granted soon. This is also important for emergency preparedness. I would think that many will see this in these pandemic times and more turbulent political times than in a long time. In the meantime, our internet radios continue.

Thank you for listening!

Poland

Radio Poland

Radio Poland is part of Poland's public radio network, Polish Radio.

Transmitter site: Shortwave broadcasts no longer originate from Poland itself, but Radio Poland is heard over the facilities of Shortwaveservice in Germany.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.	CIRAF	Area
1600-1630	Daily	German	6005	Kall, Krekel, Germany	1	ND	18,19,27,28,29,37N	Europe

Note: this broadcast is subject to confirmation; it was not heard on 31 January 2022 and may have been discontinued.

Romania

Radiocom

Radiocomunicatii S.A. is a Romanian national company, which works under the brand name Radiocom. Radiocom is a leading company in Romania in the sphere of broadcasting and Telecommunication Services supply. As the national transmitter network owner, it also operates the shortwave transmitters at Galbeni, Săftica and Țigănești.

Transmitter sites: There are three shortwave transmitter sites currently operational in Romania:

Galbeni: Galbeni is a village in Filipești, a commune in Bacău County, Western Moldavia. It has 2 x 300 kW DRM-enabled shortwave transmitters.

Săftica: Săftica is a village in Balotești, a commune in the northwestern part of Ilfov County, Muntenia. It has 1 x 100 kW DRM-enabled shortwave transmitter.

Țigănești: Țigănești is a village in Ciolpani, a commune in the northwestern part of Ilfov county, Muntenia. It has 3 x 300 kW DRM-enabled shortwave transmitters.

Radio România Internațional

Radio România Internațional (Romanian: Radio România Internațional, or RRI) is a Romanian radio station owned by the Romanian public radio broadcaster Societatea Română de Radiodifuziune (SRR, the national public radio in Romania) that broadcasts abroad. Prior to 1989, the station was known as Radio Bucharest. According to the Romanian law nr. 41/1994, republished, the SRR produces and broadcasts programmes in the Romanian language and other languages, for worldwide auditorium, to promote the image of Romania, and her internal and external politics.

Note: frequencies marked † are not on air at present.

Țigănești transmitter off air

Dear friends,

Radiocom, the company that provides the broadcast of Radio Romania International programmes, announced the malfunction at the BD 300-1 transmitter from Țigănești (near Bucharest), which transmits RRI shows. Radiocom is making efforts to fix the malfunction. Shortwave frequencies are affected for RRI shows in Romanian (azimut New York, and the Romanian Courier, broadcast on Sundays), English (azimut New York, San Francisco, Nairobi, London, Tokyo and to Australia), French (azimut Paris, Central Africa, Maghreb), German (azimuth Berlin), Spanish (azimuth Madrid, Buenos Aires), Russian (Azimuth Moscow, Novosibirsk), Arabic (Azimut Magreb and Mashrek) and Chinese (Azimut Beijing).

On the other hand, Radiocom announced that it had a mechanical malfunction in the Săftica, transmitter, BD 100-1, which affected the shows in Italian, Serbian, Ukrainian and Aromanian dialect. The malfunction was partially repaired, but we cannot broadcast the shows with 30 degrees Kiev in Ukrainian. Radiocom assured that he is working to completely fix the malfunction from the Săftica transmitter.

We will keep you updated on the situation and invite you to receive RRI programs on the functional frequencies from Țigănești (BD 300-2), Galbeni (ID 300-1 and ID 300-2), on the website (including on demand), on SoundCloud, on applications, through TuneIn and satellite.

(Radio Romania International Facebook page 1200, 8 Nov 2021 - translated from Romanian - via Alan Pennington)

Shortwave relays from Radiocom facilities

This schedule lists relays that are believed to originate from Radiocom transmitters in Romania.

Time/UTC	Days	kHz	Station	Tx site	kW	Az.	CIRAF	Area
0900-1000	Sat	9510	IRRS Milano	Săftica	100	300	18-20,27-30,37-40	Europe

Radio Nord Revival

Radio Nord Revival was last on the air on 4 & 5 September 2021. Göran Lindemark, Radio Nord Revival Facebook Group wrote beforehand "Radio Nord Revival has now received a broadcast permit September 4-5. There will be broadcasts from Kastellet in Vaxholm on FM 91,9 MHz. And on a short wave from Julita in Sörmland. We have received three alternative frequencies in the 49 meter band: 6035, 6060 and 6130 kHz. (Göran Lindemark, Radio Nord Revival Facebook Group, 26 August 2021 - translated from Swedish via Alan Pennington, BDXC iog)

Switzerland

SRG SSR

The Swiss Broadcasting Corporation (SRG SSR; German: Schweizerische Radio und Fernsehgesellschaft, French: Société Suisse de Radiodiffusion et Télévision, Italian: Società Svizzera di Radiotelevisione, Romansh: Societad Svizra da Radio e Televisiun) is the Swiss public broadcasting association.

Transmitter site: SRG SSR has daily transmissions via ShortwaveService in Germany.

Shortwave relays from Woofferton

The Woofferton Transmitting Station is located about three miles south-south west of Ludlow in Shropshire, near to the Shropshire-Herefordshire border. It is owned and operated by Encompass Digital Media Services Ltd. It has 6 x 250 kW & 4 x 300 kW shortwave transmitters (operating at 100 (for DRM), 125, 250 & 300 kW according to HFCC registrations).

Additional tests and one-off transmissions may be broadcast from Woofferton at short notice. One such example was on the afternoon of 5 July 2021 when several people reported hearing a test on 15510 kHz and mentioning an email address of transmissiontest@gmail.com. François (surname not known) posted a comment to the British DX Club iog to say that he had sent a report to this address and received a reply from Dave Porter: "Thank you for your report and I confirm the details are correct. These transmissions were to fault-find on a 250/300 kW sender at the UK HF transmitter station at Woofferton in England. These duration of these tests can be variable as the engineers can sometimes need a long time to establish a fault or they may interrupt the test, make an adjustment and resume. This is particularly so if the fault is of an intermittent nature. Encompass Digital Media, Woofferton is the only remaining UK HF sender broadcast station and also is the only one with this transmission test audio and email address. The audio is contained in a file play-out system and incorporates non-copyright music and voice announcements from one of the engineers, Martin, 2E1EKX at the transmitter site".

Volant Media UK Ltd

Volant Media UK Ltd create groundbreaking news content and documentaries aimed at audiences around the world not serviced by mainstream media. Founded in 2017, it is a global organisation with offices in London, Paris and Washington and has a rapidly growing team of journalists and content producers. Broadcasting from state of the art studios in West London, they cover a range of topical and factual stories, with a focus on reaching audiences in and from frontier markets. The two services of Volant Media UK Ltd of interest to shortwave listeners are Iran International and Afghanistan International TV:

Iran International

Iran International is a Persian television station headquartered in London. It is aimed at Iranian viewers and broadcasts free-to-air by satellite. The channel has received media attention for its reporting on human rights violations, political developments, LGBTQ+ rights and women's rights in Iran and has twice been nominated for International Channel of the Year by the Association for International Broadcasting. Iran International was first heard on shortwave on 19 November 2019 with an audio feed from its London-based satellite TV service, seemingly in response to an Internet blackout in Iran caused by civil unrest in several towns and cities.

Afghanistan International TV

On 15 August 2021, the day the Taliban captured Afghanistan's capital Kabul, Volant Media UK Ltd, the parent company of Iran International, launched Afghanistan International TV (AITV). AITV aspires to serve as an international news network to provide reliable information for audiences and protect media freedom in the country. AITV, which has started with daily nine hours of live television news and programmes, plans to expand to a full 24/7 schedule as soon as possible. AITV also had a radio stream which is already offering 24-hour news and programmes (a shortwave broadcast from AITV were first reported on 16 August 2021).

Other notable British shortwave stations

Encore - Classical Music on Radio Tumbri!

Encore is a weekly classical music programme produced by Brice Avory. Regular broadcast times for each edition are:

1100-1200 UTC Saturday 6070 kHz Channel 292 to Europe - Simulcast on 9670 kHz

Repeated:

0100-0200 UTC Sunday 7780 & 5850 kHz WRMI to Europe US and Canada

1700-1800 UTC Sunday 9670 kHz Channel 292 to Europe

2200-2300 UTC Sunday 3955 kHz Channel 292 to Europe

0300-0400 UTC Monday 5950 kHz WRMI to the US and Canada

1300-1400 UTC Tuesday 15770 kHz WRMI to Europe, east coast of US and Iceland. RTTY continues to spoil 15770 in some areas. Suggest listening using USB or notch filter in LSB if available.

2000-2100 UTC Friday 6070 kHz Channel 292 to Europe

The programme from Radio Tumbri first broadcast on Saturday 29 January 2022 by Channel 292 starts with the Pizzicati by Delibes from his ballet Sylvia. After that we'll have a clarinet and piano sonata from Jean Françaix, Rondes de Printemps by Debussy, and a couple of sacred motets composed by Anton Bruckner. A modern piece next - A vision of the Sea by David Matthews, followed by some Boccherini with castanets, and the Serenade in E Flat by Joseph Suk.

(If reading or downloading this guide from the BDXC website, a more recent version may be available at dxguides.info giving the contents for the very latest edition of the programme)

Radio Emma Toc World Service

The 'Radio Emma Toc World Service' is a half hour programme produced by Jim Salmon available on various broadcast stations & online. The aim is to provide a monthly entertainment & information programme - celebrating all things radio! Why 'Emma Toc' ...? Wireless station 2MT at Writtle, near Chelmsford, was required to read out their allocated callsign '2MT' at regular intervals, & in 1922 the British Army phonetic alphabet of the time was used. 'M' was 'Emma' & 'T' was 'Toc', so '2MT' became 'Two Emma Toc'. The amusing & flippant manner in which Captain Peter Eckersley read out the phonetic version of '2MT' resulted in the station being affectionately known as 'Two Emma Toc'. Check the station's website at www.emmatoc.org for details of the station's history and forthcoming broadcasts.

Radio Six International

Radio Six International is a private (not for profit) radio station operating from Scotland. Their website says they play "an interesting mixture of songs from the world's unsigned and indie artists in their native languages with a leaning towards instrumentals and some jazz plus specialist shows featuring oldies, bagpipes, easy listening, lounge, Americana, jazz, instrumentals, light music, classical plus some talk shows to spice up the mixture from time to time!"

Schedule: For the summer months (2021), Radio Six International will be on shortwave on the first Sunday of the month on Sunday 1 August and Sunday 5 September (further details at www.radiosix.com)

Vatican City State

Vatican Radio

Vatican Radio is the official broadcasting service of Vatican City. Shortwave transmissions from Vatican Radio have been reduced in recent years in favour of digital distribution but there are still a number of shortwave broadcasts mainly to Africa and Asia.

Transmitter sites: Vatican Radio's transmitting station is located at Santa Maria di Galeria, an extraterritorial area near Cesano (to the north of Rome) belonging to the Holy See. It consists of 4 x 100 kW and 5 x 500 kW shortwave transmitters (currently operating at 125 & 250 kW according to HFCC registrations). Additional relays are via Germany Madagascar, Philippines, Northern Mariana Islands and the USA

Shortwave relays from Santa Maria di Galeria

The Vatican Radio shortwave transmitters at Santa Maria di Galeria are also used by several other international broadcasting stations. These are the transmissions that are additional to those from Vatican Radio stated above.
