

2024 Slogans List

Compiled and Created by Kraig Krist, KG4LAC

IRCA Slogans 2024

Compiled and Edited by Kraig Krist, KG4LAC

It's increasingly difficult identifying broadcast stations. Some problems are due to the use of networks, some problems are caused by very vague one-liners in use by a station simply describing their format, some problems are caused by IDing as their low power FM translator, some problems are caused by non-English IDs and some problems are caused by totally ignoring FCC identification regulations.

Stations often use slogans as identifiers, believing the slogans are easier for listeners to remember.

The FCC requires stations to give their call letters once an hour, on or near the top of the hour. These FCC requirements are often ignored. Stations stretch that interpretation or bury the legal identification within programming as well as they can. In Canada, a station is not required to give its call letters at all.

A MW station may simulcast an FM station, or another MW station as part of a regional network, frequently giving call letters different from their legal hourly ID. Satellite-fed program services also use identifiers or slogans within their programming.

This is a list of MW stations of the USA and Canada, which are known to use slogan identifiers. Slogans, which include the complete call letters, are not used, except where they feature the call letters of a different station being rebroadcast. When some of the call letters are part of a slogan, they are capitalized, e.g. "7-80 KOH" is read "seven eighty K-O-H" for KKOH-780, but small letters indicate a word; "K How" is pronounced "Kay How". Numbers are indicated as follows: "6-20" is read "six-twenty", "600" is "six hundred", and "6-2-0" is "six-two-zero". Many slogans were found in the form "620"; these have been interpreted as "6-20", the most common way of reading frequencies.

Information was obtained from many sources including the issues of **DX Monitor**, **DX News** and personal monitoring of the MW radio dial.

If a station doesn't appear this indicates I don't have the slogan for the station. Please consider providing.

Any updates or corrections, please forward them to me at **kg4lac@yahoo.com**.

I hope others find the slogans helpful in their MW DXing.
